CAREER OBJECTIVE

As a recent Computer science graduate, I bring a strong foundation in programming, problem-solving, and a passion for technology. Eager to apply my knowledge and learn new skills, I seek opportunities to contribute to innovative projects, collaborate with teams, and grow as a software developer. My adaptability, dedication, and enthusiasm make me a valuable asset for any organization.

PROJECTS

1. Login Page using React & Tailwind CSS

- Built a responsive login UI using Vite, Tailwind CSS and React components.
- Implemented form validation and clean component structure.
- Authentication , JWT.

2. AMAZON Clone

- Developed an Amazon homepage clone using HTML , CSS , JavaScript.
- Designed responsive layout and navigation bar similar to Amazon.
- Improved Frontend development and responsiveness design skills.
